

MA entrance examination in Sociology at AUD is comprised of two components- 1. Written examination and 2. Interview. The written examination will be for two hours. Candidates will be required to answer essay type questions. The written exam aims to assess a student's capacity and ability to imagine, analyze, interpret and articulate the world around him/her. Given the interdisciplinary focus of the programme at Ambedkar University we do not expect our prospective students to be necessarily grounded in Sociological theories. However an ideal candidate would be the one, who demonstrates original thinking and inclination to engage creatively with the contemporary themes and issues confronting society. In short we are looking for a bunch of alert, socially sensitive and politically alive young creative minds who will carry forward the vision of Ambedkar University Delhi as compassionate citizens of a global world.
