# University Research Vision and Imagination

Ambedkar University Delhi (AUD) was set up in 2008 as a University for Social Sciences and Humanities. From the moment of its inception, Ambedkar University Delhi has been visualized as a space which combines research with teaching towards a vision of equity, social justice and excellence. In other words, the University envisages Humanities and Social Sciences as routes through which there is a role towards socially engaged knowledge production and transformation thereof. In this context, the vision of AUD has been to promote a perspective that imagines the researcher, not as a producer of abstract knowledge, but as an engaged practitioner reflecting upon the complexity of Indian realities. The process of research as AUD envisioned has never simply been about the collection of empirical facts but an empathetic and immersive understanding of people, communities, spaces or processes. The practice of research here is inherently linked to the imagination of a just and equitable society, while recognizing as well as interrogating the challenges that critical pedagogy confronts in a larger global landscape of declining importance of humanities and social sciences. It is in this reciprocity of relationship between research-researcher-society that AUD has imagined its research objective-to co-create new knowledge systems.

The University strongly believes that no knowledge becomes socially productive unless it spreads across society, transcending barriers of caste, gender, creed and class. Only then can teaching and learning become liberating undertakings, contributing to the promotion of equality, social justice and excellence. Interdisciplinary and collaborative research, therefore, is inherent to such a model of research. It is with this in mind that AUD has specialized in offering Research degrees in several disciplines that have opened out relatively new areas of enquiry. These fields are inherently contemporary and interdisciplinary in their nature—development studies, gender studies, human ecology, global studies and education studies as examples. In today's polarised world, the study of these streams, will not only play a pivotal role in improving understanding amongst cultures but also transform human experiences into lessons for the future. Further,

disciplines that might traditionally fall outside the realm of social sciences such as Social Design, Management and Social Entrepreneurship, Law and Governance, Creative Expressions have been brought under the umbrella of social sciences and humanities at AUD.

## Glimpses of AUD Campus

# AUD Kashmere Gate Campus

Students can apply for hostel accommodation once they have secured admission. The application form and details for hostel accommodation will be available at the Student Service division and on the AUD website at the time of admission.

## Gender-Sensitive Campus Spaces

Building 'gender-sensitive and healthy' campus spaces is crucial for creating an enabling environment where students and faculty, as individuals and as groups, can unfold their creative potential. The acts that constitute harassment are often general and diffused in our life. It is, therefore, important to understand what constitutes sexual harassment and how it affects our everyday lives in both public and private spheres, in educational institutions and work environments. AUD attempts to generate a consciousness amongst the university community that treats the experience of sexual harassment as a violation of one's dignity as well as freedom of mobility, speech and expression. We are committed to providing a creative and stimulating academic culture and healthy and safe campus life to our students and staff. We welcome all those who join us in the coming year to become a part of this process of creating a campus environment with a unique and fulfilling experience.

## Zero Tolerance for Ragging

As per the directions of the Honourable Supreme Court of India, no form of ragging is tolerated within or outside the University campuses. Fresh students are advised to desist from doing anything, willingly or against their will, even if ordered to do so by a senior or any other student, and any attempt at ragging should be promptly reported to the Anti-Ragging Squad or to the Dean or to the Head of the Institution, as the case may be. All students have to abide by the “Code of Discipline for students” of the University.
